Description:

Review A Must Read for Anyone Exposed to Toxic Mold. The Billings should be commended on their extensive research and tireless work on this book. Their contribution to the field of toxic mold poisoning is monumental. This book is very well written and organized and loaded with important information, so it can be referenced time and again as those exposed to toxic mold struggle in their journey back to health --Mary Short Ray, DO, environmental specialist

Mold the War Within, is an excellent, easy to read, eye opening verification of the major public health problem we have in this country with mold and mycotoxin exposure - best illustrated after

floods and hurricanes. --Lisa Nagy, MD, Environmental and Integrative Medicine Specialist

One excellent resource is the book *Mold: The War Within* by Kurt and Lee Ann Billings. The Billings learned the hard way about the damaging health effects of mold and the level of ignorance about mold's effects by the medical profession as a whole --Joseph Mercola, DO

About the Author Kurt Billings has authored two books: *Somewhere Under the Rainbow* and *A Generation Deceived*. Lee Ann Billings has a BA in Journalism from the University of Oregon and has researched, written, and marketed freelance projects.
